DESCRIPCIÓN

Audio system

BENEFITS

Audio system (all-in-one) including a pair of ceiling speakers and a wall amplifier.

With a multitude of playback options (USB/MicroSD/MP3, FM radio with 30 presets, etc.) and two aux inputs, expanding your possibilities and allowing you to enjoy the music played from any device with a line-level output.

In addition, thanks to its 2 x 6" loudspeakers, you will be able to enjoy high-quality, powerful stereo sound without distortion.

Allows you to set a maximum volume via the PC configuration software, setting a limit to ensure that you do not exceed a set volume.

This kit includes all the necessary elements needed for its installation and makes it easy to integrate into any space.

Includes remote control.

APPLICATIONS

For small sound systems in waiting rooms, small shops, homes, etc.

TECHNICAL DATA

2 x 10 W RMS

2 speakers 6" 10 W B ?

Priority of aux input 1 per signal level
