RAVEN

DESKTOP SMARTPHONE

MORE THAN A DESKTOP PHONE

Raven fuses the best from all the phones you know. The familiar form of **desktop phone**, SIM card and smart features of your **smartphone** and even generous touchscreen of your **tablet**.

RAVEN THINKS ABOUT YOU

What you know and like on your smartphone, it is all in the Raven.

Intuitive touch control, **applications** and **synchronization**. Latest trends brought to your desk, ready for office use.

SIMPLE YET POWERFUL

Large buttons are right where you would expect them. As you have used a phone before, you **already know how to use** the Raven.

MADE FOR OFFICE

Raven is the natural centerpoint of your office. It gives you the relieving perspective over your day and helps you get tasks done.

Raven's **integrated camera** and sensitive microphone were made for videoconferencing.

Google Play provides applications for any kind of business and allows you to fit Raven to your specific needs.

Raven **synchronizes contacts** and other important data with your mobile, maintaining one set of always up-to-date data across Microsoft and Google ecosystems.

DESIGNED TO IMPRESS

The elegant curves of the phone are inspired by proud raven's silhouette and brought to life using state-of-the-art technologies.

The deep black surface is smooth and **the phone looks sleek all the way round**.

READY FOR HEAVY DUTY

The Raven can be **remotely managed** and fits strict security policies with remote lock and wipe available.

Utilize the power of Android and get Raven **integrated** into your business by your IT department or any Android developer.

Heavy callers will be glad to find support for their favorite **headsets** and EHS.
